- k. **Description of Request:** The licensee requests Commission approval to grant the City of Hickory (City) permission to use project lands and water within the project boundary on Lake Hickory for the operation of the existing Long View Water Intake Facility (Facility). The City purchased the Facility from the previous owner in 2016, and since then, has been using the Facility as an emergency back-up for its primary water intake facility, located outside of the project boundary. Therefore, the City only operates the Facility in the event that its primary intake is unavailable due to natural disaster, accidental spill, or other similar circumstances. When in operation, the maximum withdrawal rate of the Facility is 2 million gallons per day (MGD). The City is not proposing to modify the Facility in any way; therefore, there is no construction associated with the request.
